(54) Title: ACCUMULATING REFRIGERATION APPARATUS

(57) Abstract: According to one aspect, the present invention provides an apparatus for accumulating products, (1) such as a refrigeration apparatus, comprising: at least one station (2) where products are to be accumulated; the station having an entry (9) for products (10) at one end and an exit (11) for products (10) at an opposite end; infeed means (3, 4), for conveying the products to the station entry; outfeed means (5, 6) for conveying products away from the station entry; and moving means (7) for moving products from the station entry into the station and for moving products out of the station at the exit to the outfeed means.
